INSTALLATION YOU CAN TRUST

## Solar Energy Systems

While you're having The Home Depot's Installation Service Providers install your new solar energy system, consider having us do these other jobs around the house:

- Roofing Installation
- Siding and Eavestrough Installation
- Air Purification Installation
- Central Air Conditioning Installation
- Fencing Installation
- Furnace Maintenance and Repair
- Garage Door Installation
- Home Security Installation
- Interlocking and Paver Installation
- Patio Door Installation

## Don't put off your projects, put off your payments!

### 6 Months\* No Payments No Interest & No Fees\*\*

On any purchase of \$299 or more (after taxes) when you use The Home Depot® Consumer Credit Card!

### Low Fixed Interest Rates starting at 9.99%. No Payments, No Interest & No Fees\*\* on All Purchases

For the first 6 Months after initial purchase on your Home Improvement Loan Card!†

\*Interest accrues from the purchase transaction date and will be waived if the purchase amount is paid in full by the plan expiration date. If not, interest will be charged at an Interest Rate of 28.8% per annum in accordance with the Cardholder Agreement. This offer is valid at The Home Depot Canada outside of Quebec. Offer not available to Quebec residents.  
\*\*There is no annual service fee and the retailer does not charge any plan administration fees.  
†OAC. Financing provided by Home Depot Credit Services, a unit of Citi Cards Canada Inc.  
®Registered trademark of Homer TLC., Inc. Used under license.

\*The annual Interest Rate that applies to a HIL account, as determined by Citi Cards Canada Inc., will be 9.99%, 12.99%, 15.99% or 18.99%, depending on the Applicant's income and credit history at the time the Application is approved. The Interest Rate that applies to the HIL account will be communicated to the Applicant when the Application for the HIL account is approved and will be displayed on all HIL account statements. HIL account balances may be repaid in full at any time without notice or penalty. Initial minimum purchase on a HIL account is \$1,000 and must be made within 60 days of the date the HIL account is opened. Additional terms apply, see store or details. Promotion available to new HIL accounts only. Interest does not accrue during the 6 month\*\* no payments, no interest and no fees\*\* promotional period. Following the expiration of the promotional period, standard Interest Rate and repayment terms apply.  
\*\*For the purposes of this promotion, six months means 180 days.

# SOLAR WATER HEATING SYSTEMS INSTALLED FOR YOU

INSTALLATION YOU CAN TRUST

## Using technology to **capture** the **power** of the **sun**

Solar energy is a clean, renewable power source, that's produced by capturing and converting the energy that's created naturally by the sun.

At The Home Depot we are committed to the environment. Our Thermal Heating Systems can significantly reduce your family's dependence on gas, oil or electricity to produce hot water.

### Leave it to the experts

Every Installation Service Provider meets our stringent licensing and insurance requirements and offers thorough product and installation know-how. They have been professionally trained to ensure your solar energy system is installed properly in a location that will allow you to maximize energy production.

## Solar Energy Systems are as **easy** as...

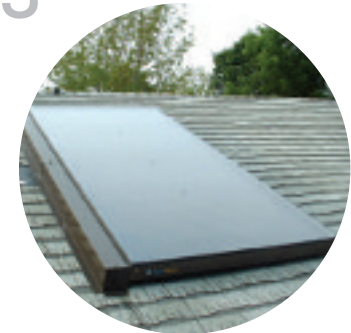

1 consult

2 install

3 inspect

### Solar Water Heating Systems

This innovative technology captures heat from the sun and uses it to pre-heat cold water before it flows into your hot water tank. A Solar Water Heating System can be a primary source of hot water, while the existing water heater functions as a backup.

This technology can offer significant savings on your energy bill. And if you choose to participate in a government retrofit program you will be eligible to receive a rebate that can help defer a portion of your initial cost.

### Take advantage of many great features and benefits:

- Reduce energy consumption and save approximately 50% on your hot water bill
- Enjoy decades of reliable and safe power generation
- Reduce your impact on the environment with clean, renewable energy

### 3 steps to professional solar installation:

#### 1. In-Home Solar Assessment

Call 1-800-HOME DEPOT (466-3337) and speak to a knowledgeable customer service agent. An authorized Solar Assessor will visit your home at your convenience to perform an on-site home assessment and provide you with a cost estimate.†

#### 2. Professional Installation

Once you've made the purchase, an authorized Home Depot Service Provider will deliver and install your solar energy system. Installation time will depend on the size of the system you choose to purchase and the particulars of the installation site.

#### 3. Follow-up Final Inspection

After the Solar Installation is complete, your authorized Home Depot Service Provider will perform a final inspection and provide you with proper instructions on how your system operates.
